

MUSIC TOGETHER®

THE JOY OF FAMILY MUSIC®

Enrich your child's life through music. Early music education develops the whole child, unfolding the natural potential to learn and become a happier more capable person.

Discover the power of music on your child's development in the enriched setting Music Together® provides. Music Together is an internationally renowned, researched-based, early childhood music program with centers all over Northern California, the United States, and around the world.

At Teacher Sean's Music Factory, children ages birth to 5 years, and their caregivers, sing, move, jam, and have FUN as we develop a music-making community. Teacher Sean, who plays guitar in his 45 minute class each week, introduces educational elements in a relaxed and playful environment. He has taught Music Together classes for 8 years. Every semester families are introduced to an exciting new collection of music.
